

Dear Sirs, With these two open letters, I beseech everyone to whom they are sent first to pray to the Lord to preserve our temple for believing Christians.

I Prayerfully hope that every recipient will read carefully everything written and understand the truth, facts, documents, violations, as well as the lack of responsibility and conscience of all the perpetrators of the condition and unwanted situation in which our church is placed.

For the sake of the Lord Jesus Christ, I implore all of you who have received the letters to make modest donations to cover the illicit loan to the fraudulent and robbed two banks.

Dear Sirs,

I write to you your second open letter, which I want to confirm the facts of the criminal activity and the negligent attitude of the OCA, in particular by Metropolitan Alexander in defense of the illegitimate priest, Valentin Notzkov, who has appointed himself as the church board ,of the never-chosen fraudsters who have occupied our church as "church trustees".

To avoid unnecessary repetitions, I would recommend reading the first open letter in the link here:

https://1drv.ms/b/s!Ar5D_FGNC5rRkzS_A72rzZUt90iv

Several are the general facts about the illegal loan from the two deceived banks taken by the illegitimate falsely representing priest and lied that he was "the owner" and the head of the falsely pledged, as a guarantee, wrongfully and criminally, of our church building.

The first summarizing fact:

Our Church "St. John of Rila " was founded in the beginning of 1996 illegally by the illegitimate and defeated ,outcasted, outlawed by the Bulgarian Orthodox Church Bishop Kiril Yonchev. Kyril (Yonchev) stands at the base of schism in the Bulgarian churches in America, as a result of which it was denied of the New York Diocesan Court on a church-criminal case filed in November 1963 by the legitimate Bulgarian Metropolitan Andrew. The Bulgarian Orthodox Synod examined the decision of the New York Church Court and approved it at its meeting in December 1963, Synod, Protocol No. 14 / 2.12.1963). Bishop Kiril Yonchev is an impostor unrecognized by any Official Orthodox Church. It is just like a false Bishop who, with a lie, poses and presents Valentin Notzkov as a priest. And it is then that criminal appointment by Kiril Yonchev, all the spiritual and material-financial actions of Valentin Notzkov are invalid and criminal. Everything in this world, which is based on lies and deceit, leads to it, as a consequence of yet another lie and deception. The evil tree can not be expected to give good fruit. Valentin Notzkov with all his lying and illegal actions and initiatives scammed two banks and should personally return the unlawful funds seized by banks, which are now larger in value than those at the beginning of the illegal loan. Although our church was created anti-canonically, the enthusiasm and the desire for a Bulgarian temple in the largest diaspora abroad - Chicago, the motivation of the Christians was great and the building was paid in full in 2006. The building has no mortgage. Banks have been deceived and must seek out the means of fraudsters and not of innocent Christians who deserve to have a church to praise and worship the Only God and Savior Jesus Christ.

The second summarizing fact:

The personality of Valentin Notzkov in the period from 1996 until present date (2019) is not a priest and does not belong to the Bulgarian Orthodox Church and to the Orthodox Church in America.. For fraudulent financial and moral crimes he has been tried many times in Bulgaria and America. As a civilian, he criminally and illegally registers our church as a corporation. As a civilian, he, along with his fake trustees, takes the credit of two banks arbitrarily and illegally, betting the church building with which he personally has nothing to do .As an example of bad management, I will give the payment for the phone and the Internet connection made by the illegal trustees during their accumulated "management" from 2004 to 2016.12 years they paid monthly unjustified and unnecessary \$ 385 "business" internet.4 600 per annum 12 years e = \$ 55,200. We, the current legal board, pay \$ 40 a month or \$ 480 a year with the same online services. Anyone can compare the irresponsibility and unjustifiable waste of self-appointed "trustees" If these facts are not true, let Metropolitans Tihon and Akexander prove it before the court .

Third generalizing fact:

Fraudulent banks have a separate responsibility for the unauthorized credit themselves granted to illegal persons having nothing to do with our church. When lending, the banks did not verify the facts, whether the claimants are legal representatives of the church and the building, or they are simply scammers who are charging church property that does not belong to them to illegally receive the huge amount of money. Fraudulent banks and their lawyers should therefore bring legal action against the individuals who have signed up for the illegal contract and have committed fraud. These individuals have names, addresses, security numbers, telephones and background files. When giving illegal loans in the archives of deceived banks, there must be the data and information listed above about the people who have taken these illegal credits. As I wrote in the first open letter, five persons should be summoned to court: Valentin Notzkov, Emil Davidkov, Boyan Chavdarov, Metropolitan Tikhon and Metropolitan Alexander. For the first appearance in court of the address of our "St. John of Rila Church "was received summons from the court with an obscure and non-serious addressee: "To Unknown Owners and Non Record Claimants". I ask Mrs Dorothy Brown to send this unqualifying our church, summons, to the five personal addresses of the above mentioned names.

Fourth summary:

The current priest in our church is the first legitimate priest on October 16, 2015. The current president and the council's trustees are the first legally elected members of the first lawful and canonical meeting of the current legal priest conducted,committed and directed by him on November 18, 2017. The Assembly of November 16, 2016, self-initiated by Metropolitan Alexander was not legally but anticanonically, falsely ,an unfair intention to conceal the crimes committed by Notzkov in the past 20 years.Assembly to select new ones the trustees conducted by Metropolitan Alexander on November 16, 2016 left a deep wound and a great disappointment among the Bulgarian Christians in Chicago who totally justifiably stopped visiting our temple on the condition that they would come back again if Metropolitan Alexander resigned.

Metropolitan Alexander still refuses to take personal responsibility for the state of our church to this day. The American Orthodox Church and its head, Metropolitan Tikhon, along with all previous Metropolitans Theodosius, Hermann and Jonah, bear the absolute blame for the state of our church and the disappointment of 300,000 Bulgarians living in Chicago. By concealing the fact that Valentin Notzkov is not a priest and allowing him to serve and perform illegal church baptisms, weddings and funerals, they have violated all church and civil laws. With all of them, lies, lack of financial and spiritual control, total neglect and running away from responsibility they cannot be called "Holy Synod". The entire Bulgarian Christian Society of Chicago insists that the American Orthodox Church pay the illicit loan taken by the two fraudulent banks from their concealed Valentin Notzkov. We publish here false and contradictory letters from Metropolitan Alexander to the perpetrators of the fraud on both banks. We insist that the summons for the first court case be sent in person to Metropolitan Alexander and Valentin Notzkov, and we hope that the venerable court will not only be satisfied with the sentence for the return of illegally taken funds from them, but also with a complete ban on all his Episcopal leadership and any future spiritual activity. Metropolitan Alexander, throughout his relations with our church, acted anti-canonically and violated all norms of behavior with lies, violations of church, civil and moral laws. I enclose the letters he wrote to our current legal priest and to the false nominees nominated by Notzkov "President" Boyan Chavdarov and "Treasurer" Krasimir Dechev. Each letter is interpreted and explained. In these letters, Metropolitan Alexander, through his statements, proves that he is complicit in the crimes, and by inciting the perpetrators of hooliganism, he is no longer worthy of being our Bishop.

Fifth Summary:

In all the years since Bulgaria emerged from its atheist totalitarian and dictatorial past and entered the democratic period of integration with the outside world, our native church did not change, but remained acting under the command of the destroyers of the holy Orthodox faith in the midst of our Bulgarian people. The spiritual and material condition of our church "missionary" abroad, compared to our neighboring Orthodox countries - Greece, Romania and Serbia is tragic and lamentable. The churches of Greece, Romania and Serbia have a wonderful organ -organized and commendable acting dioceses abroad with well-maintained temples, many Metropolitans, Bishops and priests. Their clergymen are respected with dignity and are materially provided. The missionary Christian life in them is abundantly fruitful and serves as an example. Unfortunately we cannot say such words to our Bulgarian churches abroad. Bulgaria has only two Metropolitans abroad - Only one for Europe and only one / note / for America, Canada and Australia! The fact is that all priests sent abroad, prior to the 1990 changes, are recruited agents and employees of the secret atheist services. Their main task was not to preach the faith of Christ, but to "fight enemy emigration." If anyone opposes this shameful truth and disputes these categorical facts, let him open the files of the atheist regime to all specially trained and instructed "priests".

In parallel, let anyone reading these open letters look at the actions abroad of these sent "priests".

There it is clear that almost everywhere there was enmity, judgment, litigation, drunkenness, abuse of finances, and "abomination of desolation," in the absence of any church life.

It is this kind of "priest" who is the main "hero" of these open letters, Valentin Notzkov, who successfully fulfilled his mission of destroying the faith of Christians and of "fighting enemy emigration."

Unfortunately, all the diplomats, in all these past years, concealed his activities and with all artificial

"awards", false articles in the newspapers, tried to keep the culprit. This "enemy emigration", which chose to move to the American Orthodox Church in the hope that there would be a caring anticommunist spiritual Mother, was deeply disappointed. Alas, maternal care did not happen! Through the deliberate financial and spiritual support of Metropolitan Alexander to the civilian Valentin Notzkov, by avoiding all Episcopal care and responsibility, our church has remained in a difficult position today. By lying, insinuating, manipulating, and covering up a serious crime for the fraud of both banks by Valentin Notzkov, Metropolitan Alexander made the American Orthodox Church not our spiritual Mother, but abandoned our illegitimate stepmother.
